Al Ain University and Abu Dhabi Department of Economic Development collaborate on economic research

Al-Ain University has signed a cooperation agreement with the Abu Dhabi Department of Economic Development (ADDED) to conduct and prepare studies and research on topics related to the economy of the Emirate of Abu Dhabi.

The agreement was signed by Rashid Abdul Karim Al Balooshi, Under-Secretary of ADDED, and Dr. Ghaleb Al Rifai, President of Al Ain University, in the presence of a number of officials from both sides.

Under the agreement, the sides will prepare studies and research, and align with ADDED plans and objectives and labor market requirements, to help realize Abu Dhabi Government's strategic objectives to drive sustainable economic development.

The two entities will also work together to organize relevant conferences, seminars, and specialized workshops, as well as to support efforts to prepare graduates armed with the knowledge and skills necessary to effectively contribute to building a knowledge-based economy.

Engineering & Pharmacy Students applying Calculus to solve life problems

The College of Engineering organized a virtual science activity under the supervision of Dr. Nuha Hamada, in order to develop the skills of the engineering and pharmacy students to understand calculus and how to apply it in our life.

Students prepared short videos to explain how to use mathematical models to solve real problems. Such as; Pharmacy students relate the calculus to sensitivity to changing the amount of drug doses. Also, in electrical engineering, calculus is applied in electrical circuits to calculate the rate of change of total resistance.

In addition to enhancing their mathematical skills, this activity helps students acquire various skills and knowledge; such as; the use of digital technology and modern applications for video production, in addition to presenting skills, enhancing self-confidence, and discovering talents.
